Weekly Activities and Status Report for DD/ICS--22 June 1983

CIPC Organizational Activities

- The third CIPC meeting was held on 20 June 1983.
 - The full agenda was not addressed because of time constraints.
 - The Strategic Cruise Missile agenda item will be provided to the members in writing. [] are presently working on this and we plan to forward their summary report to the members late this week/early next week. 25X1
- We will be meeting with the Working Group Chairmen and principal staff officers this week to critique the CIPC meeting and identify requirements and preliminary agenda for the July meeting.
 - Additionally, a pre-meeting with the Working Group Chairmen and principal staffers has been scheduled for 11 July; 25X1
 - and the Working Group Chairmen will be tasked to provide drafts of their respective studies, or portion thereof, by 7 July.

Feedback on the CIPC Meeting

- General Marks' special assistant, Colonel Jim O'Brien, called on 21 June to report that the General was disturbed and dismayed that some of the material at the meeting was not the same as the pre-meeting material--narcotics issue papers. I informed O'Brien that we recognized this; however, the issue papers handed out at the meeting were developed late Friday evening and were updates to the original issue paper. Also, General Marks felt:
 - the agenda was too full;
 - the [] briefing could have served as the only agenda item since this subject was more than just informational and should have been thoroughly discussed; 25X1

Personnel

25X1

25X1

- [] joined the staff effective 21 June.
- We have nominated [] to attend the newly developed Analysis Support Course for intelligence assistants on 1-12 August.
- With your concurrence, [] was informed that [] CTer, could pull her third interim on the CIPC staff. [] should report for duty no later than 11 July. [] has been advised of the foregoing.
- [] returned from Brookings; however, he had to immediately depart to North Carolina for a family emergency.

Intelligence Collection Activities Against China: []

- All responses have been received and analyzed. [] is presently preparing a summary report for distribution to the CIPC principals prior to the July meeting. Subsequent to this he will prepare a presentation drawing on the summary report, various important research papers, and related NIEs (two have recently been published) for the July meeting and concurrently seek guidance and recommendations from the members on how to proceed on this subject.

CW/BW Treaty Monitoring Study: []

25X1

- Nothing of significance to report since previous report.

Imagery Exploitation Planning: []

25X1

- Nothing of significance to report since previous report.

Narcotics Projects and Activities: []

25X1

- The Narcotics Working Group met on 14 June. The DDI Strategic Branch presented a general outline of the methodologies involved in forecasting and assessing narcotics crop production. The NWG endorsed the Chairman's recommendation that DDI incorporate these concerns in an issue proposed for the 20 June CIPC meeting.

- The NWG also reviewed staff recommendations resulting from the visit to the South Florida Task Force (SFTF) in Miami. These recommendations included: (1) the question of ensuring that the law enforcement agencies are cognizant of the most suitable and effective ways and means to task the national intelligence system, and (2) the opportunity for law enforcement elements to obtain significant computer support at a relatively inexpensive price tag. The NWG endorsed these issues for consideration and review by the CIPC on 20 June.
